

AZURE CLOUD ACCOUNT CREATION

- Below is the current process for creating a Microsoft Azure Free Account.
- Microsoft currently offers eligible new customers USD \$200 credit for the first 30 days, plus selected free services for 12 months and 65+ always-free services.

➔ Requirements

- Before starting, keep these ready:
 -  Microsoft account
 -  Mobile phone number
 -  Credit/debit card for identity verification
 -  Address details
 -  Internet browser such as Chrome or Edge
- Microsoft states that a non-prepaid credit/debit card and phone number are required for verification for the standard free account.

[Home](#) >

Create a free account

Create a free account

Explore Azure with a \$200 credit for 30 days, 12 months of free products, and more than 25 products that are always free.

Start free

1

➔ Step 1: Go to the Azure Website

- URL: <https://azure.microsoft.com/en-us/free/>

- What you'll see:

Create Your Azure Free Account
Start with \$200 Azure credit
+ 12 months of popular free services
+ 55+ always-free services
Start free →

➔ Step 2: Sign In or Create a Microsoft Account

Microsoft Sign In
Email, phone, or Skype
Next →
No account? Create one!

- If you have an existing Microsoft account : Enter your email and click "Next"
- If you DON'T have a Microsoft account : Click "Create one!"

➔ Step 2a: Creating a New Microsoft Account (if needed)

Create account
someone@example.com
Or get a new email address
Next →

- ☒ Enter your email address → Click "Next"
- ☐ Create Password :

Create a password
.....
Next →

- ☒ Create a strong password → Click "Next"

➔ Step 3: Email Verification

Verify your email
We've sent a code to someone@example.com
Enter code: _ _ _ _
Verify →

- ☒ Check your email for the verification code → Enter it → Click "Verify"

➔ Step 4: CAPTCHA Verification

Solve the puzzle to prove you're human
[CAPTCHA Challenge Image]
Next →

--

- ☒ Complete the CAPTCHA challenge → Click "Next"

➔ Step 5: Azure Sign-Up Form - Your Profile

Sign up - About you	
1. About you (active) — 2. Identity (pending) — 3. Agreement (pending)	
Country/Region:	Select country ▼
First Name:	
Last Name:	
Email:	(pre-filled)
Phone:	+1 ____-____-____
Next →	

- Fill in all the fields :
 - Select your Country/Region
 - Enter First Name & Last Name
 - Verify Email address
 - Enter Phone number
 - Click "Next"

 Microsoft Azure

Your profile

Country/Region

Oman

Choose the location that matches your billing address. You cannot change this selection later. If your country is not listed, the offer is not available in your region. [Learn More](#)

First name

This field is required

Middle name (Optional)

Last name

This field is required

Email address

This field is required

Phone

Example: 23 123456

☐ Use a different phone number to verify your identity.

Create your Azure free account

 Popular services free for 12 months

 55+ services always free

 USD200 credit to use in your first 30 days

No automatic charges

After your credit is over, we'll ask you if you want to continue with pay-as-you-go. If you do, you'll only pay if you use more than the free amounts of services.

➔ Step 6: Identity Verification by Phone

Identity verification by phone

Phone number: +1

☐ Text me

☐ Call me

Verification code:

Verify code →

- Actions:
 - Enter your phone number
 - Choose "Text me" or "Call me"
- Enter the verification code received
- Click "Verify code"

➔ Step 7: Identity Verification by Card

Identity verification by card (You won't be charged unless you upgrade)	
Card Number:	
Expiry Date:	MM YY
CVV:	
Name on Card:	
Address Line 1:	
City:	
State:	Select state
Zip Code:	

- Enter your credit/debit card details
 - ⚠ Note: A temporary \$1 hold may appear for verification. You will NOT be charged for the free account.

➔ Step 8: Agreement

Agreement
☒ I agree to the subscription agreement, offer details, and privacy statement
☐ I would like information, tips, and offers about Azure and other Microsoft products

Sign up →

- Actions :
 - Check the agreement checkbox (required)
 - Optionally check marketing emails
 - Click "Sign up"

➔ Step 9: Setting Up Your Account (Loading)

[illegible]

- ⌚ Wait for Azure to provision your account (1-2 minutes)

➔ Step 10: Welcome to Azure! 🎉

A screenshot of the Azure portal interface. At the top, there's a header bar with the Azure logo and the text 'You're ready to go with Azure!'. Below this, a large message states 'Your \$200 credit is active for 30 days'. At the bottom of this section, there is a button that says 'Go to the Azure Portal ->'. The interface is clean and modern, with a light blue and white color scheme.

- Click "Go to the Azure Portal"

➔ Step 11 : Login to Azure

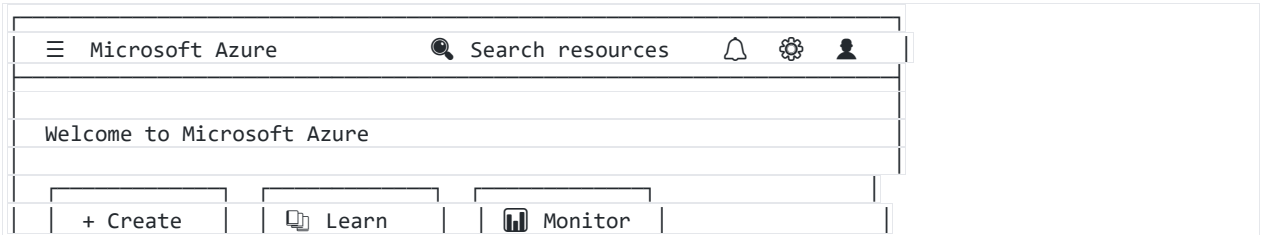

- Provide username :
 - Click next
- Provide password
 - Click on yes for sign in

- Provide password
 - Click on yes for sign in

➔ Step 11 : Azure Portal Dashboard

🌐 URL: <https://portal.azure.com>

a resource			
Azure services			
Virtual Machines	App Services	SQL Database	Storage Accounts
			More Services
Recent resources			
No recent resources			
Navigate			
• Subscriptions		• Resource groups	
• All resources		• Dashboard	
• Marketplace		• Cost Management	

🎉 Congratulations! Your Azure account is now ready to use!

➔ Azure Free Account Benefits :

- \$200 credit Valid for 30 days
- 12-month free Popular services including services : 750 hrs B1S Windows/Linux VM, 250 GB SQL Database, 5 GB Blob Storage, 5 GB File Storage, 1M Cosmos DB requests

☁ Always free → 55+ services including : Azure Functions (1M requests), Azure DevOps (5 users), App Service (10 web apps), Azure Kubernetes Service

⚠ Important Tips

Tip	Details
💳 No surprise charges	Free tier won't auto-charge; you must manually upgrade
🕒 \$200 credit expires	Use within 30 days or it's lost
📊 Monitor spending	Go to Cost Management + Billing regularly
🔒 Enable MFA	Set up Multi-Factor Authentication for security
🗑 Delete unused resources	Stop/delete VMs and services when not in use
🔄 After 30 days	You'll be asked to upgrade to Pay-As-You-Go

➔ VIRTUAL MACHINE CREATION PROCESS

➔ In portal type Resource group

- Create a Resource Group
 - Name : any
 - Region : any
 - Click on “ Review and Create “

The screenshot shows the 'Create a resource group' page in the Microsoft Azure portal. The page has a blue header with the Microsoft Azure logo and a search bar. Below the header, there's a breadcrumb trail: Home > Resource Manager | Resource groups. The main heading is 'Create a resource group'. There are three tabs: 'Basics' (selected), 'Tags', and 'Review + create'. A description of a resource group is provided. Below the description, there are three input fields: 'Subscription' (a dropdown menu showing 'Azure_nvs_subscription 1'), 'Resource group name' (a text box containing 'rg-1'), and 'Region' (a dropdown menu showing '(Asia Pacific) Central India').

- After creation RG in portal

The screenshot shows the 'Resource Manager | Resource groups' page in the Microsoft Azure portal. The page has a blue header with the Microsoft Azure logo and a search bar. Below the header, there's a breadcrumb trail: Home > Resource Manager. The main heading is 'Resource Manager | Resource groups'. There are several tabs: 'How to manage changes with deployment tools?', 'Export resource groups using Bicep or Terraform', and 'Summarize my costs by service'. Below the heading, there's a search bar and a list of actions: '+ Create', 'Manage view', 'Refresh', 'Export to CSV', 'Open query', 'Assign tags', and 'Add to service group'. There's a filter bar with 'Filter for any field...' and 'Subscription equals all', 'Location equals all', and 'Add filter'. Below the filter bar, there's a table with columns: 'Name', 'Subscription', and 'Location'. The table has two rows: one for 'rg-1' and one for 'Azure_nvs_subscription 1'.

Name	Subscription	Location
rg-1	Azure_nvs_subscription 1	Central India

- Now resource group have been created.

➔ Create a Virtual Network

- In search bar type **Vnet** or **Virtual Network**
- Click on **Create**

The screenshot shows the Microsoft Azure portal interface. At the top, there's a blue header with the Microsoft Azure logo and a search bar. Below the header, the breadcrumb trail reads 'Home > Network foundation'. The main heading is 'Network foundation | Virtual networks'. There are three utility buttons: 'Check the status of all virtual network routes', 'Check connectivity across Virtual Networks', and 'Suggest a firewall SKU for my'. A search bar is present with the text 'Search'. Below the search bar, there's a navigation pane on the left with options: Overview, Virtual network, Virtual Network overview, Virtual networks (selected), NAT gateways, Public IP addresses, Network interfaces, Network security groups, Application security groups, Bastions, Route tables, Route servers, Private Link, DNS, and Related services. The main content area shows a message: 'No virtual networks to display'. Below this message, it says 'Create a virtual network to securely connect your Azure resources to each other. Connect your virtual network to your on-premises network using an Azure VPN Gateway or ExpressRoute.' There is a '+ Create' button and a 'Learn more' link. At the bottom, it says 'Showing 1 - 0 of 0. Display count: auto'.

- Select Resource group : which you have created
- Name : any
- Region : any
